Smart Future

SUCCESS CASES

Syabas in Malaysia
H3C AD Campus SDN Solution applied to Syabas.
Syabas sets up and enforces automated access and consistent security policies across network easily.
Deployment and Configuration reduced to 3 weeks.

Tianjin University
The First Dedicated Cloud Platform for College
Seven Centers and Multiple Sub-system in one Network
End-to-End Service and Maintenance

CNOOC
China National Offshore Oil Corporation
Build a roadmap together to consolidate and migration to cloud platform
Demonstration & verification in HQ
Support existing system migration to cloud

Sichuan Government Cloud
Haier
One network bearing 80% devices
Full visualization of interconnected factories
Expand Cooperation in Smart Manufacturing

CCB
China Construction Bank
Long term Cooperation with CCB since 2008
Proven practices in top customers (BOC, ICBC) of Finance industry
Deployment within 60 days
Leading and proven one-stop Cloud-infrastructure practices
Innovative 1+N+N+1 architecture, which becomes major and popular mode for other government cloud
Help Migrate near 400 existing government applications into cloud environment

CORPORATE PROFILE

H3C is an industry leader in the provision of Digital Solutions, and is committed to becoming the most trusted partner of its customers in their quest for business innovation and digital transformation. We offer a full portfolio of Digital Infrastructure products, spanning across compute, storage, networking, 5G, security and related domains, and provide a comprehensive one-stop digital platform that includes cloud computing, big data, artificial intelligence (AI), industrial internet, information security, intelligent connectivity, new safety, and edge computing, as well as end-to-end technical services. We are also the exclusive provider of HPE servers, storage and associated technical services in China.

We have firmly oriented ourselves towards the needs of our customers, supported by a deep foundation with more than 30 years of operation. We provide scenario-based and customized solutions to our customers, enabling digital transformation in various industries that include, but not limited to carrier, government, finance, healthcare, education, transportation, manufacturing, utilities, energy, and Internet etc., products are widely used in nearly 100 countries and regions.

In 2019, we officially launched “Digital Brain Project”. Based on the Smart Digital Platform composed of Digital Infrastructure, Business Empowerment Platform, Active Security, and Unified Operation & Maintenance Services, we join hands with our ecosystem partners to co-innovate in smart applications, and help our customers from various industries to build digital brains in their respective domains. In 2020, we launched “Digital Brain Project 2020” under the guidance of Intelligence Strategy. Through upgrading from the original Business Empowerment Platform to the Cloud and Intelligence Platform, we build a new core engine for digital brains, which can further strengthen the intelligence and business support capabilities, accelerating the digital transformation of various industries.

We take technical innovation as the engine for growth. Currently, more than 50% of our employees are R&D personnel. We have filed over 11,000 patents, of which more than 90% are invention patents. Through advanced technical capabilities and intelligent means, we will continue to fully implement “intelligence +”, and further promote the application of intelligence in various industries.

“Shaping the Digital Future for a Better Life” is the corporate vision of H3C. We are aiming to drive the development of the digital economy, and together with customers and partners, to create a better life for all to enjoy.

ABOUT US

**Who We Are**

- A leading digital solutions provider
- Having a full set of digital infrastructure capacities including Compute, Storage, Networking and Security
- Member of OPNFV, MEF, SPEC and Gold Member of OpenStack

**Capability**

- 2 Headquarters
- 7 R&D Centers, 47 Branch Offices
- 100+ Countries and Regions covered
- 7 Global Offices
- 50,000,000+ Facilities Operating Online

**Employees**

- 13000+ Employees
- 50%+ R&D Personnel

**Performance**

- Leading in China Enterprise Market
- Ranked NO.1 in China Enterprise WLAN Market
- Share for Consecutive 11 Years

INNOVATIONS

- **11,000+** Number of patent applications
- **4** An average of 4 patent applications per working day
- **90%** Invention patents account for more than 90%

- **300+** Cloud Computing
- **6,000+** Interconnectivity
- **100+** Big Data
- **1,000+** Information Security
- **500+** Infrastructure
- **1,000+** Others
H3C products and solutions market leading position also verified by lot of 3rd party marketing research company and facilities. For examples, in Gartner’s Magic Quadrant reports, H3C unified wired and wireless in campus, H3C data center cloud networking, Network Firewalls, Network Performance, Monitoring and Diagnostics, Hyper convergence infrastructure, all are include in the reports. H3C also work with Tolly group, provide verified performance reports on Data Center core switch S12500X, backbone core router CR19000, MSR branch routers and Campus S7500 etc. Industry’s first ever large-scale 400G test with SRv6 (Segment Routing over IPv6 dataplane) capabilities successfully completed by H3C and Spirent on with 72 ports of 400GE on S12500 series Data center switches. H3C computing virtualization platform gets record score in Specvirt testing. All H3C SecPathFirewall Family retained certification following rigorous and thorough testing in the ICSA Labs Firewall Certification Testing Program.

Application-Driven NET (AD-NET5.0) Solutions
Corporation Profile

government, finance, healthcare, education, and various industries that include carrier, transportation, retail, finance, and more. We provide comprehensive solutions for digital transformation in various scenarios with more than 30 years of operation. We focus on customer needs and provide IT infrastructure, computing, storage, and associated technical services in China. We are also the exclusive provider of HPE computing, as well as end-to-end technical services. We take technical innovation as the engine for growth. Currently, more than 50% of our employees are R&D personnel. We have filed over 11,000 patents, of which more than 90% are invention patents. Through advanced personnel and technology, we will continue to fully implement "intelligence +", and further promote the application of intelligence in various industries.

Vision & Mission

"Better Life" is the corporate vision of H3C. We are aiming to drive the development of the digital economy, and together with our customers, enabling digital transformation in various industries.

In 2019, we officially launched "Digital Brain Project". Based on the Smart Digital Platform composed of Digital Infrastructure, Business Empowerment Platform, Active Security, and Unified Operation & Management Services, we join hands with our ecosystem partners to assist various industries and regions.
