H3C SMB Products

Intelligent SMB, Keeping Your Business Agile and Sharp

H3C SMB Cloud-based Mgt Platform

- Zero touch provisioning
- Stateless connection
- GUI setting, easy handle
- Unification, visualization
- Cloudnet App, mobility
- Multi-cloud empowerment

Value-added

- Firewall, UTM, Operation, Flexible authentications, Restful API

Full Service Coverage

Deploy

Cloud survey
Bulk deploy
ZTP
Quick start by Cloudnet APP

Manage

Troubleshooting

Value-add

Cloud Autos
IPPM
MGP
Hotspot Management

Openness

Open-Platform
Restful API
Co-win Ecosystem

H3C SMB Retail Chain Store Solution

Solution Advantage

- Cost-effective, no need to centrally deploy traditional ACs at the headquarters.
- Simple OAM, centralized visibility and management for Wi-Fi, wired, and Wi-Fi networks, devices and clients from any device at any time.

Home Routers

Dual-Band Gigabit Wi-Fi 6 Router

H3C Magic Home Routers

- Support the feature like 160MHz bandwidth, 1024-QAM, OFDMA and BSS Coloring
- Professional chip ensures a smoother and more stable network experience
- Creative vertical design is like “signal tower”, with the high-gain antennas to provide better wireless signal and wider coverage
- Wi-Fi Alliance Certified EasyMesh forms seamless whole-home Wi-Fi coverage

Home Routers Features

Wi-Fi 6 Standard

High Performance

New Vertical Design

Easy Mesh

**H3C SMB Managed Switches Portfolio**

- **SMB&SOHO Switches Features**
  - Cloudnet Intelligent Management: Easy maintenance and management through H3C Cloudnet platform.
  - Cost-effective: Low unit price, high adaptability.
  - High Performance: With a buffer sharing architecture, the switch multiplies the available buffering space for each port.
  - Easy Maintenance: Plug and play, no configuration required.
  - Energy Saving: Low power design, low power consumption.

- **SMB&SOHO Switches**
  - Series: S1600V2
  - Options: GE, 10GE Uplink
  - Models: S1600V2-6P, S1600V2-6P-HPWR, S1600V2-10P, S1600V2-10P-HPWR, S1600V2-18P, S1600V2-18P-HPWR, S1600V2-26P, S1600V2-26P-HPWR, S1600V2-26S, S1600V2-26S-HPWR

- **SMB Web Managed Switches Portfolio**
  - Web Managed Switches Features
    - Cloudnet Intelligent management
    - Abundant Features: VLAN, link aggregation, IGMP snooping, Jumbo frame, etc.
    - PoE+: Supports PoE+ with a maximum power supply of 370W for the whole device and a maximum output power of 30W for a single port.
    - 10 models, GE & 10GE Uplink

- **SMB Unmanaged Switches Portfolio**
  - Abundant Features
    - GE/10GE Uplink
    - VLAN, link aggregation, IGMP snooping, Jumbo frame, etc.
  - Easy Maintenance: 3 years warranty, easy to install.
  - Energy Saving: Low power design, power saving.

**Web Managed Switches Features**

- **S1600V2 Series**
  - Cloudnet Intelligent management
  - Abundant Features: VLAN, link aggregation, IGMP snooping, Jumbo frame, etc.
  - PoE+: Supports PoE+ with a maximum power supply of 370W for the whole device and a maximum output power of 30W for a single port.
  - 10 models, GE & 10GE Uplink
  - Easy installation and management through H3C Cloudnet platform.

**H3C Unmanaged Switches Features**

- **Cost-effective**: Low unit price, high adaptability.
- **High Performance**: With a buffer sharing architecture, the switch multiplies the available buffering space for each port.
- **Energy Saving**: Low power design, low power consumption.

**H3C Wireless Controller and Cloud AP Portfolio**

- **AC and Cloud AP Features**
  - Gateway Function: PPPoE, TACACS, TFTP server, VRRP, Bonjour gateway, multi-WAN port, etc.
  - Rich Security Features: Port, 802.1x, IP authentication, 802.11x, 802.11n, 802.11ac, AES, WPA3, WPA, WPA2, WEP, etc.
  - Easy maintenance and management through H3C Cloudnet platform.

- **H3C SMB Router**
  - MSR610
  - Small Router: 270x140x44mm
  - Up to 600Mbps throughput
  - Up to 200Mbps business iMIX throughput
  - 1*SFP+, 5*GE
  - 1GB memory
  - 256MB flash
  - WebUI/Cloudnet Management
  - TR069/SNMP/Netconf
  - Intelligent Network Management
  - IPv4/IPv6, NAT, DHCP server, IPSec/SSL, etc.
  - Gateway Function
  - Cloud Management

- **H3C SMB Firewalls**
  - NGFW
  - Asymmetric/CMR/MA, 8GB, 100GE
  - Management: H3C Cloudnet management, TR069/OpenFlow network
  - Highline: Boost/AC/VPN
  - Cost-effective: 2400Mbps throughput, 700Mbps business iMIX throughput
  - Support AC
